

A RELIGIOUS CENSUS.

Under the direction of the Summit Hill Pastor Association the first religious census of our town is being taken. Two young ladies from every church volunteered to do the work which is now nearing completion.

This work will greatly assist the various pastors in locating their own members as well as giving an opportunity to those who do not belong to any church to express their preference of church-membership, thus opening the way for an invitation from their favorite church to become a member of same.

When the visitors call at your home—please give them all the information possible—for in so doing you will be helping your church and pastor.

Consistory Meeting.

The Consistory met at the regular time and place for its March meeting, and the following resolution was adopted:

Resolved, That hereafter no sociables, entertainments, lectures, etc., are to be held in the church building without first having the approval of the Consistory.
