Heart Fades Away  
Copyright 1996 Karen Story

Had a dream bout a place I knew once  
Felt so real brought tears to my eyes  
Left me feeling I had really been there  
Walking under those skies

Gonna keep those places in my mind  
Til my heart fades away  
Won't let go of the memories I find  
Til my heart fades away  
Til my heart fades away  
Don't go away

Here you are, yes it's been a long time  
Yet it feels like only a day  
The things we knew still keep them in my heart  
Time doesn't take them away

Gonna keep those people in my mind  
Til my heart fades away  
Won't let go of the memories I find  
Til my heart fades away  
Til my heart fades away  
Don't go away

Memories come around and they surprise you  
Might bring smiles, might bring tears  
Open your heart, let them back inside you  
Fill the spaces left by the years

Gonna keep those memories in my mind  
Til my heart fades away  
Won't let go of the ones that I find  
Til my heart fades away  
Til my heart fades away  
Don't go away

## Touch the Sky

Copyright 1996 Karen Story

Climbed a mountain high  
Got to touch the sky  
Gazing out from there  
Mountains everywhere  
Wanna climb them too  
See a different view  
Feel the world is new  
I don't wanna hear there's something  
I can't do

Been up here too long  
Time for moving on  
Which one should I choose  
Is there much to lose  
On the trail once more  
Cross the valley floor  
Open a new door  
I gotta find out what life  
Holds in store

I crossed paths with you  
Wasn't looking to  
Walk a while with me  
Show me what you see  
I wish I could stay  
Afraid I'll lose my way  
Maybe one more day  
I don't wanna know the price  
I'd have to pay

Bridge:  
Walked through sun and snow  
Valley's far below  
Seems the more I know  
The farther I have to go  
New horizons keep me strong  
They're where I belong  
They help me find my song  
Don't wanna believe it's wrong to

Climb a mountain high  
Get to touch the sky  
Gazing out from there  
Mountains everywhere  
Wanna climb them too  
See a different view  
Feel the world is new  
I wanna believe there's nothing  
I can't do

# Stagestruck Blues

Copyright 1996 Karen Story

He was playin' his guitar  
In another funky bar  
Watchin' his woman dance  
She came to hear him play  
Instead she danced the night away  
In the arms of another man

If you wanna play the blues  
You know you got to pay your dues  
He never knew the price would be so high  
Watched 'em dance across the floor  
Then he danced her out the door  
And she didn't even wave goodbye

So players listen here  
If you hold your woman dear  
Never let her come to hear you play  
She'll be your biggest fan  
Until she meets another man  
While you're playin' he'll be stealin' her away

## You Know I Tried

Copyright 1996 Karen Story

I met you in a different place  
I couldn't resist your pretty face  
We fell in love, or so it seemed  
But now I think it was just a dream

Chorus:

You know I tried to love you too  
I always thought I would be true  
You know I tried  
You know I tried  
You know I tried  
You know I tried

We were young and so naive  
So much we wanted to believe  
Sure that we could make it last  
I can't believe it was gone so fast

Chorus

Bridge:

And now I'm tellin' you goodbye (3X)  
goodbye

I know it's hard to let me go  
So much that you won't ever know  
You couldn't see the real me  
Now it's too late, please set me free

Chorus twice, fade
